Declaration of Conformity

We, Mücher Dichtungen® GmbH & Co.KG, herewith certify that all our couplings and bushes, branded Canada Plus, Type 2B, meet the requirements of the following European Standards:

- **DIN EN 681-1** Elastomeric seals – materials requirements for pipe joint seals used in water and drainage applications – Part 1: Vulcanized rubber
- **DIN EN 295-4** Vitrified clay pipes, fittings and pipe joints for drains and sewers – Part 4: Requirements for special fittings, adaptors and compatible accessories
- **WIS 4-41-01** (Water Industry Specification) Flexible couplings for gravity sewerage and drainage pipes
- **ETA -09/0248** (European Technical Approval) Elastomeric flexible couplings, with an optional stainless steel shear band used to assembly sewer or drainage pipe

Furthermore Mücher is operating a Quality Management System according to DIN EN ISO 9001:2008 since 1993.

As our products are manufactured to the above mentioned European Standards and requirements, Mücher Dichtungen® GmbH & Co.KG is authorised to mark its products with the CE-Mark.

i.V. Jörg Ostrzinski
- Director of Quality Management -
